GENERAL

Proceedings of the Government of Mysore,

READ—

Letter No. 408, dated 18th November 1899, from the Superintendent, Government Printing in Mysore.

I have the honor to represent that necessarily a large quantity of stationery is used in the taking of proofs when work is done in the Press. Sometimes it is necessary to take four and five proofs in view of corrections by the Revising and Proof Examining Branch. The first two or three proofs are either "galley" or "rough chase" "impressions," and being technically termed "rough proofs" can be pulled on inferior kinds of paper. On an examination of stock in the Despatching Branch I find that there are several forms and blank printed books, which, having become obsolete, might well be used for "rough proofs" in lieu of clean unused sheets, and I have accordingly arranged for a thorough overhauling of forms in stock and the eliminating of all forms now not used by departments, with a view of being worked up for proof purposes, and I anticipate this will lead to some saving in paper. My object in addressing you on this subject is to suggest that possibly in some of the departmental offices, and probably in the Dewan's office, there may be numbers of blank forms laying by—old and useless paper to the department, but which might be very handy for the Press in the matter of proof-taking. Any sizes of forms would be useful from quarter foolscap up, provided they are printed only on one side, or even forms, if printed solid on one side and ruled on the other, could be used. To this may be added old forms bound in books (generally ruled columns), paper written on one side only, and large covers which could be opened out by cutting and would be very handy.

It occurs to me if my suggestions could be acted upon, (and I do not see that any difficulty would present itself) and co-operation of all offices secured, there would be a considerable saving in the use of stationery in the Printing Room of the Central Press; and if Government favors this view, I beg that a circular may be issued to all offices I will be glad to receive papers at any time during the year and to submit to Government a memo of all received in the Press.

I beg to forward some specimens of old papers illustrating their usefulness in the matter of rough proof-taking.

No. 6358-97—MIS. 1891, DATED BANGALORE, 2ND DECEMBER 1899.

ORDER THEREON—The Superintendent's suggestion is approved, and the letter read above will be circulated to all Heads of Departments and Deputy Commissioners for favor of very early compliance.

Letter No. 398, dated 16th November 1899, from the Superintendent, Government Printing in Mysore.

With reference to Government Proceedings No. 11684-5—Mis. F. 17-93, dated 15th April 1899, sanctioning, tentatively for six months, the adoption of the revised rates for piece-work compositors, Central Press, and the organizing of a Distributing Branch, I have the honor to report the results of the above measures for the past six months, *i. e.*, since 1st May 1899 to 31st October 1899. It will be observed that much saving in expenditure on piece-work composing has been effected by the introduction of these measures. The Distribution Branch has been working satisfactorily, as an auxiliary to the Composing Department, and I am of opinion that it should now be placed on a permanent footing. Subjoined is a statement of the financial results of the working of the new rates and arrangements, compared with what would have been paid under the former rates for composing, which works out a saving to Government of Rs. 1,625-9-2 for six months :—

If Government is satisfied with the results, I request sanction, permanently, to the existing Distribution Establishment, costing Rs. 235 per mensem, to amalgamate the same with the Fixed Establishment of the Government Central Press, and to continue the revised rates for piece-work composing.

No. 6435-36—G. F. 17-94, DATED BANGALORE, 4TH DECEMBER 1899.

ORDER THEREON—The Government are pleased to direct that the measures sanctioned in Government Proceedings No. 11684-5—Mis. F. 17-93, dated 15th April 1899, be given a further trial till the end of the current official year, a report of the results obtained being then submitted by the Superintendent.

Letter No. 165, dated 23rd November 1899, from the Superintendent of Government Stationery.

I have the honor to submit, for information of Government, a list showing the numbers of Raiyat Patta Books, No. 4, and Demand Notice Form, Revenue, samples enclosed, indented for and supplied to Deputy Commissioners for the years 1895 to 1899.

2. I amn ot in a position to form an opinion as to whether the numbers indented for are too high; but from experience of the manner in which excessive numbers of other forms are applied for, I cannot but form the idea that there is much room for economy in these two items. Only recently one Officer applied for 1,000 copies each of two forms which are only submitted fortnightly to Government, and of which 150 copies would have been a very liberal supply, while another Officer applied for 100 Bungalow Books, a book being kept in use for a bungalow for over five years.

3. These are only some of the instances which occur to me to mention as illustrating the absence of care and attention in the preparation of indents and the absence of a proper scrutiny by Officers in their requisitions.

No. 6722-30—Mis. 1986, DATED BANGALORE, 12TH DECEMBER 1899.

ORDER THEREON—The above will be communicated to all Deputy Commissioners of Districts, who will be requested to report as to the data on which their requisitions for forms for 1899-1900 were based, as these figures seem, in the majority of cases, to be out of proportion to the averages of the preceding four years as reported by the Superintendent.

2. Future indents for such forms will be submitted by the Officers concerned in the accompanying form to the Superintendent of Government Printing for check and compliance.

READ—

Letter No. 163, dated 22nd November 1899, from the Superintendent of Stationery Depot, to the Secretary to the Government of Mysore, General and Revenue Departments.

In overlooking the correspondence which passes to the Stationery and Printing Departments from other offices, it has struck me that a very large percentage of communications are sent on large sized dockets, causing much unnecessary waste of stationery, and it is quite possible that this wastage may be obviated by the use of smaller and less expensive dockets and a more general use of service post-cards, which latter are very inexpensive.

2. As illustration of waste of docket forms I beg to enclose eight dockets received recently from various quarters, the contents of which might well have been recorded on a post-card.

3. The quarter-sheet docket, sample enclosed—should, without doubt, be largely utilised and may very probably take the place of over 50 per cent of communications made on the larger and more expensive form. It may be said without fear of contradiction that in the percentage of correspondence from one office to another the volume of matter is written only on the *face* of the docket, all the inner and outside faces being left unused; there is no reason why these faces should not be used and accordingly the smaller docket can be made to convey a lengthy communication when the front, inner and out-side faces are written on.

4. In the substitution of service post-cards for small and unimportant matters, the lengthened official style and form can be discontinued and the *communique* confined to the point. For instance, "Has the honor to request he will be good enough to send 200 Daily Report Plague Forms to this office, &c. &c.," might well be reduced to "Please send 200 Daily Report Plague forms—stock running low" and so forth, and a post-card used.

5. If Government view this matter in the light in which I have endeavoured to place it, a section might be added to the Stationery rules enjoining the general use of small dockets as far as possible between Departments, in lieu of the large foolscap dockets, and the use of service post-cards for such communications as can be written on a card. It may be necessary to make an exception to this ruling in correspondence addressed to Government: this I leave entirely to your decision.

6. In conclusion, I find that the requisitions for the large foolscap dockets have been increasing at a high rate during recent years and it will be in the interests of Government to keep the consumption under check and control.

No. 6833-72—Mis. 2023, DATED BANGALORE, 14TH DECEMBER 1899.

ORDER THEREON—**The above letter will be communicated to all Heads of Departments and Deputy Commissioners of Districts for favor of very early report as to whether communications addressed to Officers, other than those specified in para 3 of the Government Proceedings No. 9380-1—L. F. 57-92, dated 26th December 1892, are now written on large-sized docket forms in any, and what offices, and also for favor of opinion as regards the proposal of the Superintendent of Stationery regarding the use of service post-cards for communications on small and unimportant matters.**

READ THE FOLLOWING PAPERS :—

(1) Extract from the Dasara Representative Assembly Proceedings of 1893.

Subject No. 125.
An anikat across the Dandavatti and a road from Tilavalli to Banavasi.

Summary of Discussion.—During several years past representations have been made, 1st to construct an anikat across the Dandavati River and to take the water in channels for filling tanks in the maidan portion of the Anavatti hobli for irrigation purposes; (2) to open a road from Tilavalli to Banavasi *via* Anavatti and Kerehalli.

Dewan's Reply.—The Deputy Commissioner states that these projects are under investigation in the Public Works Department.

(2) Letter No. 5890, dated 20th November 1899, from the Chief Engineer in Mysore, reporting on the above.

Shimoga Executive Engineer's No. 337 of 14th August 1899.
Western Circle Superintending Engineer's No. 4599 of 10th November 1899.

In returning the Kanarese petition of Eranna and other raiyats of Anavatti village, Sorab taluk, received with your No. Pet. 323, dated 23rd August 1897, praying for the construction of an anikat across the Dandavatti River, I have the honor to forward the enclosed copies of marginally noted references, and to inform you that for the reasons advanced therein, I concur with the Superintending Engineer's opinion that the project for the work will have to be abandoned.

II. This disposes of Subject No. 125 of Dasara Proceedings of 1892-93.

(Enclosures to the above).

Letter No. 337, dated the 14th August 1899, from the Executive Engineer, Shimoga Division, to the Superintending Engineer, Western Circle.

With reference to Superintending Engineer's No. 3077 of 29th July 1899, enquiring what has been done in the matter of selecting site for an anikat across the Dandavatti, as per Superintending Engineer's No. 2095 of 22nd September 1897, forwarding Chief Engineer's No. 4689 of 20th September 1897, I have the honor to report that the Range Officer, Honnali, was requested in this office No. 1041 of 9th October 1897 to investigate the project.

2. The valley was reconnoitered and sites inspected and trial levels run, commencing from the floor of Dandavatti *Bridge* (3 spans of 30' each) on Sorab-Sirsi road, and preliminary report was submitted with Range Officer's No. 9 of 8th January 1898, in which he recommended the abandonment of the project as it was not a remunerative one. This was mislaid and the Superintending Engineer's reference was not included in the unanswered reference list by oversight. A brief resume of this report is now annexed for kind information and orders.

(1) There are no sites for an anikat across the river above Sorab. The catchment is not much and the country is one of close contours. The resulting transverse slope does not allow much land to be commanded even when a high anikat is built and channel led off.

(2) Below Sorab there are only two good sites marked A and B in the accompanying tracing from Topo Sheet No. 4. Cross sections of these two sites also accompany.

(3) From these it will be seen that at site A the R. L. of bed is 88·00, the floor of bridge at Sorab being taken as 102·80. There is thus at present a fall of 14·80 ft. in about 2¼ miles of the stream. But when an anikat is attempted at A its crest will have to be at least at 100·00 to command any lands worth mention, and then this fall will be reduced to 2·80 ft. and the bridge will be exposed to absolute danger unless its water-way is considerably enlarged. Further, during floods, all the lands on both banks of the river about the anikat, which are under wet cultivation now, will be completely submerged, unless costly training banks are put on both banks for two miles and more. The catchment at this site is 48 square miles and site is rocky.

(4) At site B the catchment is 56 square miles and the level of bed is 81. The anikat will at least have to be built to R. L. 96·50 to command some land. Although the flanks in rear are not cultivated and costly training banks required at A will not be necessary here, the saving is more than counterbalanced by the difficulties of foundations (hard rock not being available at short depth) and the greater height of anikat. The available fall from bridge to site B after construction of such an anikat will be 6·25 ft. against the existing fall of 21·80 in a length of 3¼ miles.

Although the anikat will cost about the same amount whether at A or B as explained *supra*, site B has to be preferred out of engineering considerations. Granted that a site

is available and coming now to the financial prospects of the work, it has to be noted that the lie of the country is not suited for a channel to command extensive lands. Even adopting a minimum and perhaps objectionable fall of 1·50 ft. per mile, the channel on the right bank hugs the river and in places where it sweeps round noses of subsidiary ridges, it is in dangerous proximity to the stream. The right bank channel was traced for 7¼ miles up to Sayagondanakoppa ridge. The trace has been marked on revenue survey maps. The total area commanded is 1,400 acres of which 1,000 acres are already under wet cultivation below large tanks in the subsidiary valleys. Thus the return that can be expected is as noted below :—

	Rs.
Difference between dry and wet assessment on 400 acres at Rs. 3-8-0	1,400
Water rate on 500 acres of land now cultivated by rains ...	1,000
Sale of waste land	600
	3,000

The trace on the left has not been attempted, but judging from the contours and extensive wet cultivation below tanks, it cannot be very much more remunerative. The cost of the project will be more than a lakh.

Most of the lands which these channels could command is already under wet cultivation below large and numerous tanks in the subsidiary valleys. What with these and what with the abundant rain-fall of the taluk, I consider what is wanted for Sorab in months June to November, is not irrigation but drainage.

The project for an anikat and channels can be entertained in Sorab taluk only if, during the closing months of the monsoon, we can arrange to intercept large quantities of flood discharge in the river and lead the same to be stored in tanks along both banks lower down after restoration of these tanks to hold a much larger supply than they at present do. This supply will be used by raiyats for growing sugar-cane and other summer crops, and the demand for this kind of work is seen both in Shikarpur and Sorab taluks; but unfortunately none of these tanks, whether on right or on left, are commanded by our channels which could be opened out after construction of ordinary anikats, although very high and costly anikats resulting in the submersion of extensive cultivation above, might do this for a few tanks without any reasonable or proportionate benefit to the raiyats or Government.

Docket No. 4599, dated 10th November 1899, from the Superintending Engineer, Western Circle, to the Chief Engineer of Mysore.

Chief Engineer's No. 4689, dated 20th September 1897, regarding sites for an anikat across the Dandavatti River near Sorab.

In forwarding the file on the subject, has the honor to inform that in the undersigned's opinion the project will have to be abandoned for reasons given in Executive Engineer's No. 337, dated 14th August 1899. If the channels were extended to a length of 20 miles, there would no doubt be a considerable area of land commanded by them, but most of such land is already irrigated, and the return on the outlay would be inconsiderable.

No. 6973-81—Mis. 2101, DATED BANGALORE, 18TH DECEMBER 1899.

ORDER THEREON—The Executive Engineer has discussed the question fully and his opinion, concurred in by the Chief Engineer, is conclusive. This view may be intimated by the Deputy Commissioner, Shimoga district, to the members of the Dasara Representative Assembly, who brought this subject forward.

Letter from the First Assistant to the Resident in Mysore, No. 5623—265-99, dated 12th December 1899, forwarding copy of No. 3524 I-A, from the Government of India communicating certain instructions in respect of preliminary measures which it is desirable to undertake in Mysore during the present cold weather, of which the following are material extracts :—

No. 3524 I-A., dated Simla, the 29th November 1899.

In continuation of my letter No. 1882 I.-A., dated the 5th July 1899, regarding the Census of 1901, I am directed to communicate the following instructions in respect to preliminary measures which it is desirable to undertake in Native States during the present cold weather.

2. The basis of all census operations is the statement or register, showing the villages actually in existence in any given area—pargana, prant, chauki or whatever the local administrative unit may be. * * * *

* * * * * *

3. With the object of getting this important preliminary operation carried out during the present cold season, I am to suggest that steps should be taken to collect, in the form herewith enclosed, the requisite information respecting Mysore territory. The local Census Superintendent, who will, it is understood, be appointed in or about April 1900, will then find ready to his hand complete information which will enable him to proceed at once to form charges, circles and blocks for census purposes, and to select charge superintendents, supervisors and enumerators. The column showing the number of houses will enable the superintendent to calculate how many schedules he requires—a point which must be settled early in view of the very large amount of printing which will have to be done.

Block =50 houses or so.
Circle =a group of 10 blocks.
Charge =a thana or talsil, or part of a talsil containing a convenient number of circles.

No. 7033-40—Mis. 2132, DATED BANGALORE, 21ST DECEMBER 1899.

ORDER THEREON—Communicated to Deputy Commissioners of Districts for early attention. Assistant Commissioners in Divisional charge or the Officers conducting the jamabundi settlements for the current year should be instructed to get up these Registers of Villages in actual existence carefully and promptly.

2. The Register for each Taluk should be written Hoblivar in the annexed Form A and conclude with a summary for the whole Taluk. It should be lodged in the Deputy Commissioner's office attested by the Amildar, and the Divisional Assistant Commissioner or Jamabundi Officer.

3. After this, a summary of the Taluk Registers should be prepared in the District Office and forwarded to the Dewan's Office as it becomes ready in the annexed Form B. The figures should be reconciled with the latest Revenue Returns, and discrepancies, if any, should be accounted for. Where, in any Taluk, an amalgamation of Villages may be probable in the course of next year, a remark to that effect should be inserted. The summaries are expected in the Dewan's Office complete for each District by the end of March or earlier.

Docket No. 274, dated 22nd September 1899, from the Superintendent, Government Printing in Mysore—

With reference to para 3 of Government Proceedings No. 1720-21—Mis. 364, dated 4th August 1899, as to better keeping of some of the Press accounts, has the honor to state that Mr. Biddulph's suggestions have been given effect to as far as practicable during last year, and the other instructions will be acted upon this year, as all of them could not be enforced at one time. A memo as to these details is submitted herewith for information. The designation "Curator, Government Library" does not appropriately signify the duties of the Officer concerned, such as "Registering" and "Authorizing copyrights" of publications. Consequently the expression may be ordered to be changed to "Registrar of Publications" as the Officer has nothing to do with any Library or Book Depot as pointed out by Mr. Biddulph.

Memo showing Mr. Biddulph's suggestions given effect to in the Government Press.

Paras 4, 10, 11 of Mr. Biddulph's audit notes. Are acted upon.

Para 12. The present system of issuing articles from the Stores direct, signing for each, as they are made over, seems more convenient. If section-holders are entrusted with materials for re-issue to compositors, the former will have to be provided with almiras, &c., for safe custody of the materials in their charge. All of which will entail extra cost and labor; besides will divert the attention of the section-holders from their legitimate duties.

Paras 13, 14, 15, 16, 17. Are acted upon.

Para 18. It will not be practicable to introduce the Stationery Issue Book in the Press. At present six different books are maintained for consumption of current stock, one for each section, which answers the purpose better.

Paras 27, 28. Are acted upon.

No. 7129—Mis. 2130, DATED BANGALORE, 21ST DECEMBER 1899.

ORDER THEREON—The difficulties urged against the adoption of the suggestions contained in paras 12 and 18 of Mr. Biddulph's notes are not insuperable, and Government direct that the suggestions in question be given effect to at once.

2. Separate orders will issue in regard to the question of change of designation referred to by the Superintendent.

Letter No. 3017, dated the 10th—12th October 1899, from the Plague Commissioner in Mysore, stating that reductions in his office establishment are under his consideration and requesting that, as it is desirable to send out to permanent appointments as many of the clerks as he could spare on the pay they now draw in the Plague Commissioner's office, the sanction of Government may be obtained for filling up vacancies that may occur in the Dewan's Office and in the Districts in consultation with him.

No. 7261-7301—Mis. 2145, DATED BANGALORE, 22ND DECEMBER 1899.

ORDER THEREON—The list received with the above is communicated to Heads of Departments (including Secretaries to Government) and Deputy Commissioners, with a request that they will be good enough to provide suitably for the men to be thrown out from the Plague Commissioner's Office, as vacancies occur, in communication with the Plague Commissioner. Meanwhile, pending such provision, the men when discharged from the Plague Commissioner's Office should at once revert to their substantive appointments.

READ THE FOLLOWING—

Letter No. 4295, dated the 2nd December 1899, from the Plague Commissioner in Mysore to the Secretary to the Government of Mysore, Revenue and General Departments.

I have the honor to forward herewith letter No. 347, dated the 24th August 1899, (in original) with its enclosures from the Deputy Commissioner, Bangalore district, with the Dewan's endorsement thereon, regarding the settlement of prices for sites allotted for building purposes in the Basavangudi and Malleswaram extensions and to state that, in consultation with the Superintending Sanitary Engineer and the Deputy Commissioner, I have fixed the rates specified hereunder :—

I. For a single house site of 30′ × 100′ Rs. 30 per site, or one rupee for every 100 square feet.

II. For more than one single house site allotted to the same individual, a progressive rate of Rs. 30 for the first site, Rs. 60 for the second and Rs. 90 for the third site, or at the rate of 1 rupee for every 100 square feet for the first site and rupee 1 for every 50 square feet of the second site, and rupee 1 for every 33⅓ square feet for the third site.

NOTE.—Some house sites being slightly in excess of the general unit of 3,000 square feet, the excess will be charged at the rate of 1 rupee per 100 square feet.

III. For all cottage sites, villa sites and superior house sites, at the rate of rupee 1 for every 100 square feet.

IV. For bazaar sites, at the rate of Rs. 50 for every site of 30′ × 120′.

NOTE.—On no account should more than one cottage site or villa site or superior house site or bazaar site be given to one individual.

2. The above rates are subject to the condition that the houses and bazaars are built, or their construction is commenced, within the 31st December 1899, those who undertake to build houses and bazaars thereafter being charged 1½ times the above rates.

3. This decision has been arrived at after a full consideration of all the important aspects of the subject such as (*a*) the fact that the extensions were primarily started with a view to relieve the over-crowding in the City and provide accommodation for people whose houses were either dismantled on sanitary grounds or were taken up for opening out conservancy lanes; (*b*) the advisibility of pushing on the construction of houses; (*c*) the prayer of the people that the hardship suffered by them on account of plague may be taken into consideration in fixing the prices; (*d*) the desirability of encouraging all poor *bona fide* house-builders and discouraging as far as possible speculation; (*e*) the cost incurred by Government.

I therefore request you will be so good as to obtain the sanction of Government as early as possible for the levy of the above rates and to notify the same as widely as possible for the information of the people.

No. Pg. 667-71, DATED BANGALORE, 15TH DECEMBER 1899.

ORDER THEREON—The rates of price for building sites in the Malleswaram and Basavangudi extensions, recommended in the foregoing letter, are sanctioned on the special grounds stated by the Plague Commissioner. The above sanction is subject to the condition that the buildings are built, or their construction is commenced, before the 31st December 1899.

2. The Government deem it undesirable to lay down at present that the rates to be charged to all those who undertake to build after the 31st December 1899 shall be 1½ times the rates sanctioned above. Such a limit of future price can only be promised to such persons as may buy the sites before 31st December 1899 but commence to build thereon after 31st December 1899, but within the

time specified for the purpose in the conditions of the sale. In the case of such persons 1½ times the above sanctioned rates may be charged.

As to future rates of price in the case of other persons the Government cannot at present pass any orders.

3. The price of sites sold should be levied and credited to the Treasury.

4. The Plague Commissioner is requested to furnish a statement showing the price recoverable for sites sold and the amount recovered and credited to the Treasury.

It is important that there should be established a system of speedy punctual recoveries.

EDUCATION

Proceedings of the Government of Mysore,

READ AGAIN—

Letter No. 872-3—35, dated 24th July 1899, from the Inspector General of Education in Mysore, recommending a monthly grant of Rs. 17 in aid of the Mahomedan Students' Home temporarily opened at Kolar.

READ ALSO—

Subsequent correspondence ending with the Inspector General's docket No. 4447—182, dated 15th November 1899, reporting that there is no provision in the budget, except the General Savings, from which the proposed extra charge in question can be met.

No. 6294—ED. F. 42-96, DATED BANGALORE, 1ST DECEMBER 1899.

ORDER THEREON.—As a general rule there ought to be at least 20 boarders to start a Students' Home with. In the present case the Government are willing to reduce the minimum to 15, it being undesirable to have a separate Home costing Rs. 204 per annum for any smaller number. The President of the Committee of the Home in question may be informed accordingly.

Letter No. 4342—180, dated 14th November 1899, from the Inspector General of Education in Mysore, recommending that, in consideration of the costliness of living and unhealthy nature of the locality, each of the two teachers of the Taluk Branch Kannada School at Marikanave be granted a local allowance of Rs. 3 per mensem, a like concession having been shown to the Public Works Department officials at the place.

No. 6354-5—ED. 231, DATED BANGALORE, 2ND DECEMBER 1899.

ORDER THEREON—Sanctioned as recommended, with effect from the 1st December 1899.

Letter No. 4543—287, dated 16th November 1899, from the Inspector General of Education, submitting, for favorable consideration, a proposal made by the Comptroller for modifying the present practice of disbursing pay to Hobli School Masters through the Amildars of the Taluks in which they are employed.

No. 6487-96—ED. 233, DATED BANGALORE, 5TH DECEMBER 1899.

ORDER THEREON—The proposed change is no doubt desirable, but as it would entail an additional cost of Rs. 3,120 per annum, the Government feel constrained on financial grounds to defer its consideration for the present. The existing system, which has been in force for more than 24 years, should therefore be continued and the Inspector General will be so good as to see that intimations of changes among Hobli School Masters are given to Amildars in time, and bring to the notice of Government delays, if any, on the part of the latter in disbursing their pay. The Taluk Establishments have been strengthened recently, and in doing so the work of all branches, including the preparation of pay abstracts, &c., of Hobli School Masters has been duly taken into consideration. Amildars are, therefore, expected to guard against undue delay.

READ—

Letter No. 3149—120, dated 23rd September 1899, from the Inspector General of Education in Mysore, submitting the budget estimates of the Industrial School, Mysore, for the year 1899-1900, with an explanatory memo.

EXPLANATORY MEMO.

The grand total of the budget provided for the year 1899-1900 is Rs. 20,117 against Rs. 18,446 sanctioned for the past year. The usual abstract and detailed statement for each item under Machinery and Tools are submitted for information.

ITEM I, MACHINERY AND TOOLS.

1. *Drawing Class.*—As sum of Rs. 408 is provided for this class in the current year against Rs. 170 provided for last year. This increase is provided on account of the following items of expenditure :—

(1) for obtaining a human skeleton complete with articulated joints for the use of the students appearing for the Advanced Grade in Free-hand, (2) for two dozen free-hand wall cards for the use of the Elementary and Intermediate Standard boys, (3) for sundry articles such as slant tiles for water-color painting, sponges, vases and models required for the classes.

2. *Modelling Class.*— The current year's grant of Rs. 312 is a little in excess of the past year's grant. This is to provide the class with some more plaster-casts to serve as models for copying and further to meet trainage and shipping charges due for some plaster-casts ordered last year from Messrs. D. Brucciani and Sons, London.

3. *Carpentry and Wood Carving Class.*—A sum of Rs. 142 has been provided for this class in the current year's budget against Rs. 117, sanctioned for last year. This sum is required for getting a new supply of chisels, planes, &c., in place of the old and unserviceable ones used by the class for a long time.

4. *Blacksmiths and Fitters' Class.*—A small provision of Rs. 52 is made for this class against Rs. 511 provided last year. This is required for the purpose of providing new tools such as files, &c., in place of those worn out by long use.

5. *Masonry Class.*—In addition to the Ceylon Ghat Tracer, Theodolite, and Levelling instruments purchased from last year's grant, a Gunter's chain, optical square, and a Clinometer are required for this class in the current year for teaching their several uses. A sum of Rs. 112 is provided for this class against Rs. 1,041, sanctioned for last year.

6. *Pottery Class.*—In spite of the poor accommodation of the Hill-View premises, both roofing and flooring tiles were made experimentally and submitted to the Chief Engineer who approved of them. A small trial order for flooring tiles from the Executive Engineer, Bangalore Division, has been complied with. A Lift and Force Pump obtained from last year's grant, supplies water for the tile manufacture. The Double chamber, brick, tile and pipe-makingmachine ordered last year, has just arrived from England. This useful machine cannot be worked satisfactorily as there is hardly any room in Hill-View where this machine and the Pug-mill can be worked together. A wooden model of drain-pipe-jointing machine was designed and completed last year. It was not possible to make a full-sized machine of this kind as there were some alterations to be made in the model itself. A sum of Rs. 200 has therefore been provided for this purpose in this year's budget. Last year's provision of Rs. 150 was not utilized. The Brick, Tile and Pipe-making machine and the Pug-mill require wooden frame-work and other attachments if they have to be worked in the current year. A provision of Rs. 660 is therefore made for this class.

7. *Rattan Work Class.*—A considerable portion of the time of this class is occupied in the preparation of cane into strands of different sizes before being worked out into various articles of cane-work such as tiffin-baskets, trays, &c. A Cane-splitting machine is therefore provided for the use of this class. This entirely removes the difficulty generally experienced by beginners in this craft, to split canes for work, and to slit them into strands of uniform thickness. The use of this machine further gives to cane-work a superiority over needle-work as an useful occupation for men and makes this handicraft the simplest

that can be learnt by any one in a short time. With the help of this labour-saving machine the cane-worker will find it very easy to earn twice or three times that they would earn without it. A sum of Rs. 670 is therefore provided under this head. Messrs. Ransome & Co., Stanley Works, Chelsea, London, are the sole-makers of this machine (*vide* Ransome's Catalogue page).

8. *Machine Class.*—Accommodation forbids the purchase of new machinery for this class and in consequence only a few patent lathe-attachments such as those for milling, shaping, slotting, and drilling have been provided for this year. A small out-fit for cycle-repairing consisting of a good set of stock and dies and a powerful lamp for all kinds of brazing jobs, is also provided. A sum of Rs. 635 is therefore asked for this class, against Rs. 147 sanctioned for last year.

9. *Sundries.*—The same provision of Rs. 120 is retained for the current year as in 1897-98 to meet any unexpected charges such as variations in the price of tools, &c., caused by a rise in exchange.

ITEM II, MATERIALS.

1. *Timber.*—The necessity for stocking dry and seasoned timber such as teak, rose-wood, &c., in large quantity becomes imperative when large orders for the supply of furniture are undertaken in the carpentry class as was the case last year. A sum of Rs. 2,000 has therefore been provided under this head against Rs. 800, provided for last year.

2. *Iron, Steel, Brass, Aluminium, &c.*—In addition to the supply of metals such as iron, steel, brass, &c., a small quantity of aluminium sheets and ingots is required for manufacturing, cooking utensils tumblers, water-bottles and travelling out-fits, as these have become one of the principal wants of the present day. Both hammered and cast work in this new metal were tried successfully and there is a wide field of usefulness for an aluminium work-shop in the school similar to the one started at the Madras School of Arts by Mr. A. Chatterton B. Sc. of the Civil Engineering College. A sum of Rs. 800 is therefore provided under this head, against Rs. 600 provided for last year.

3. *Cane, Twine, Bamboos, &c.*—Last year's grant of Rs. 500 for this class is reduced to Rs. 300 for this year as there is a small supply left unused of cane purchased last year.

4. *Clay, Felspar, Gypsum, &c.*—A sum of Rs. 1,000 is provided under this head for supplying the modelling and pottery classes with a sufficient supply of clays for the manufacture of tiles, pottery, terracotta and other articles.

5, 6 and 7.

Last year's provision of Rs. 300 under Screws, Nails, &c., Rs. 500 under fuel for the kilns, and Rs. 100 under sundries are retained for this year.

ITEM III, SCHOLARSHIPS.

The provision of Rs. 3,300 made for the current year is the same as last year's. This includes the sum of Rs. 900 provided for the Weavers' Class at Chamaraja Mogga. In connection with this item, a revised scale of scholarships for each class has been submitted to Government for sanction. The total amount sanctioned under this head, has not yet been utilized for the last two years. Government sanction is therefore awaited for giving effect to the increase sanctioned in the previous year.

ITEM IV, RENT OF BUILDING.

(1). The present premises occupied by the school are found to be quite insufficient as regards accommodation. With a view to acquire a larger building and larger area of vacant space, it seems necessary to remove to some other place. If the Executive Engineer's office premises are not available it is considered advisable to go back to the premises lately occupied by the School in Nazarbad, owned by a private landlord. A sum of Rs. 720 is provided as usual under this head at a monthly rate of Rs. 60.

(2). *Temporary Sheds.*—A sum of Rs. 400 is provided under this head against Rs. 350 provided last year to construct new sheds and to repair the old ones.

(3). If the school is to make a move to some other suitable building, a temporary kiln for burning tiles and masonry tanks for preparing clays have again to be constructed. A sum of Rs. 400 has therefore been provided under this sub-head against Rs. 300 sanctioned last year. This sum also covers the repairing charges of the present temporary kilns and tanks.

ITEM V, CONTINGENCIES.

(1). Last year's provision of Rs. 300 is retained for the present year to supply the school with a set of furniture required for the school. This item may be reduced in future budgets.

Sub-heads 2, 3, 4 and 5.—Last year's provision of Rs. 150, 100, 120 and 50 are retained for this year under the respective heads.

6. *Sundries.*—A sum of Rs. 400 is provided for this year against Rs. 200 sanctioned last year to enable the Superintendent to travel in and out of the Province to secure good materials such as Trincomalee wood, white cedar, Singapore canes, aluminium, kaolin, felspar, fusible earths, for glazing, &c., as well as to enable him to be in touch with all the latest improvements in the equipment of Technical Schools, Workshops, tileworks or other industrial centres in India.

ITEM VI, WAGES OF TEMPORARY ESTABLISHMENT.

1. (a) Last year's grant of Rs. 120 is repeated for this year as the pay of the wood-carver.

(b) A sum of Rs. 864 is provided for this year against Rs. 630 sanctioned last time for engaging artizans such as carpenters, sawyers, smiths, etc., and to execute large orders which the boys alone could not complete, owing to the limitednumber of working hours in the school.

2. (a) *Labour, Coolies, etc.*—The present year's provision of Rs. 300 under this sub-head is slightly in excess of that of the previous year's grant.

(b) Cart Hire, etc.—Last year's provision of Rs. 200 would be found insufficient if the school should move from the present premises to some other building. A provision of Rs. 300 is therefore made for this year.

(c) Sundries.—Last year's provision of Rs. 100 under sundries is retained for the current year.

ITEM VII, ESTABLISHMENT.

In accordance with para 10 of Government Proceedings No. 13509-10—Ed. 429, dated 13th June 1896, no additions or increases are provided under this head without obtaining the previous sanction of Government.

ITEM VIII, WEAVING INDUSTRY.

No provision is made under this industry as almost all the houses in Weavers' lines have been occupied as health camps. Besides this there are at present a sufficient number of European hand-looms to keep the class working.

ITEM IX, NIGHT CLASSES FOR GENERAL INSTRUCTION.

Last year's provision of Rs. 50 under 1 and Rs. 144 under 2 are retained for the current year.

No. 6610-11—ED. F. 4-99, DATED BANGALORE, 8TH DECEMBER 1899.

ORDER THEREON—

(1) *Receipts.*—The small increases anticipated under the heads :—

I. "Carpentry Class"

III. "Smithy Class" are accepted.

(2) *Expenditure.*—Pending the provision of a suitable building for the Industrial School, and pending also an improvement in the outturn of work, which at present is somewhat disproportionate to the expenditure, Government are not prepared to increase the allotments under the following major heads as proposed:—

II. "Materials"

IV. "Rent of buildings," and

VI. "Wages of temporary establishments."

The provisions made for the last year under these heads will therefore be repeated this year. The estimates under the other major heads except VIII "Weaving industry" under which no provision has been made, will stand.

(3) With the foregoing remarks the budget estimates of Receipts and Expenditure of the Mysore Industrial School for 1899-1900, are sanctioned as per accompanying appendix of which an abstract is given below :—

Government Proceedings No. 7129—Ed. 208, dated 18th December 1897, passing orders on a programme, submitted by the Inspector General of Education, of school buildings to be constructed by Government, and observing that though unable to make any special State Grant for village school buildings, Government would not object to proposals being made in the Village School Fund Budgets of the next and succeeding years for the utilization of so much of the cash balance at the credit of the Village School Fund as could be usefully spent upon the construction, extension and improvement of village schools.

(2) *Letter No. 10129—372, dated the 14th June 1899, from the Inspector General of Education in Mysore.*

With reference to para 2 of Order No. 13601-4—Ed. F. 20-96, dated 22nd April 1898, I have the honor to inform you that I sent to the Chief Engineer in Mysore three copies of each of the plans and estimates of the Village School Buildings prepared by Mr. T. Dalal, late Executive Engineer, Tumkur Division, with my letter No. 5943—65, dated 25th January 1899. The Chief Engineer in his reply No. 1946, dated 18th April 1899, informs me that he got the plans and estimates prepared by Mr. Dalal scrutinised by Mr. Karve, Superintending Engineer, Eastern Circle, and agrees with the Superintending Engineer in thinking that "the plans prepared by Mr. Dalal are not suitable, not only because the buildings will be unsightly but also because there are engineering defects in them as pointed out by Mr. Karve." The Chief Engineer sends me the revised plans and estimates of the five designs prepared by Mr. Karve and asks me to re-consider the matter.

2. The plans of Mr. Karve are undoubtedly preferable, but the cost of the buildings proposed by Mr. Karve is much greater than that of the buildings proposed by Mr. Dalal, as will be seen from the following table :—

Design.				Mr. Dalal's estimate.	Mr. Karve's estimate.
				Rs.	Rs.
I	...	...	...	522	880
II	...	...	...	895	1,450
III	...	...	...	1,273	2,920
IV	...	...	...	1,604	3,520
V	...	...	...	2,890	3,750

Plans III, IV and V of Mr. Karve differ but little from one another, and it will be possible to do without the V design, except in the case of largely attended schools, by dividing at a slight additional expenditure each of the two side rooms of designs III and IV into two rooms of equal size, and thus providing a building of five-rooms in place of one of three. The buildings designed by Mr. Karve are not only better looking but far more substantial than those designed by Mr. Dalal, and are free from the engineering defects pointed out by Mr. Karve in the latter.

3. Under these circumstances I request that Government will approve of Mr. Karve's designs and estimates for adoption in the construction of all village school buildings in future.

4. I enclose, for reference, ten manuscript copies of Mr. Karve's designs and estimates and also ten printed copies of Mr. Dalal's designs and estimates, and request that they may be returned to me with the orders of Government in reply to this letter. After Mr. Karve's plans and estimates are approved, they will be printed for use.

(3) *Order thereon No. 914—Ed. 32, dated Bangalore, 17th July 1899.*

Government observe that it was on the recommendation of Mr. Bhabha that the plans and estimates prepared by Mr. Dalal were approved. In paras 5 and 6 of his Memo, dated 5th November 1897, printed with Government Proceedings No. 7129—Ed. 208, dated 18th December 1897, Mr. Bhabha stated that the said plans and estimates were prepared by Mr. Dalal in consultation with him and that "much thought and care have been expended" on them and that he (Mr. Bhabha) tried "to make the buildings as neat, substantial and economical as possible." Now it is represented that the buildings, if constructed according to Mr. Dalal's plan, will be unsightly and that there are also engineering defects in them. The new designs are estimated to cost 40, 50 and 60 per cent more than Mr. Dalal's. As the average attendance in a Hobli School is only between 33 and 53 and that of a Taluk Branch School is between 100 and 130, it seems undesirable to spend large sums on them, more especially as the number of buildings required is large. If there are engineering defects in Mr. Dalal's designs they, of course, need rectification, but much of architectural beauty cannot be imparted into these Village School Buildings without incurring heavy cost which, on financial grounds, must be avoided. The Government therefore desire the Inspector General of Education to be so good as to carefully revise the designs now submitted in consultation with the Public Works Department and to reduce the estimates to the lowest possible limit and to address the Government again. Mr. Bhabha is also requested to report if any buildings have already been constructed according to Mr. Dalal's designs and, if so, at what places.

(4) *Letter No. 4863—197, dated 27th November 1899, from the Inspector General of Education in Mysore.*

With reference to Government Order No. 914—Ed. 32, of the 17th July 1899, I have the honor to forward herewith the revised plans and estimates of the Village School Buildings prepared by Mr. V. H. Karve, Superintending Engineer, Eastern Circle, and approved by the Chief Engineer of Mysore. The following statement shows the difference of the estimated cost of each of the five revised designs as compared with Mr. Karve's original estimates and those of Mr. Dalal :—

Design.	Cost as per Mr. Karve's original estimate.	Cost as per Mr. Karve's revised estimate.	Cost as per Mr. Dalal's estimate.
	Rs.	Rs.	Rs.
I	880	698	522
II	1,450	1,068	805
III	2,920	2,069	1,305
IV	3,320	2,331	1,697
V	3,750	2,788	2,890
Total ...	12,320	8,954	7,129

2. The revised estimates do not include the Public Works Department establishment charges. Mr. Karve, in his letter No. 4200, of the 14th November 1899, addressed to the Chief Engineer of Mysore, states that the estimates have been "reduced as far as possible and that further reduction is not feasible without reducing accommodation." The reductions in the estimated costs have been effected by substituting stone in mud for stone in mortar for foundations, by using honne instead of teak, by lessening the number of doors and windows by slightly reducing the height of doors and by reducing the height of basement from 2' to 1½'.

3. Under these circumstances I request that Government may be pleased to approve of Mr. Karve's revised plans and estimates for adoption in the construction of all Village School Buildings in future.

4. I enclose for reference ten manuscript copies of Mr. Karve's revised plans and estimates and also ten printed copies of Mr. Dalal's plans and estimates, and I request that the enclosures may be kindly returned to me with the orders of Government.

No. 6719-20—Ed. F. 20-96, dated Bangalore, 12th December 1899.

ORDER THEREON—Government are pleased to authorize the adoption of the revised plans and estimates of the Village School Buildings prepared by Mr. V. H. Karve, Superintending Engineer, Eastern Circle, and approved by the Chief Engineer of Mysore, as it is reported that no further reduction in cost is feasible. It is observed that the cost of the revised estimates as given in the margin for the five designs now sanctioned do not include Public Works Department establishment charges. The designs and estimates will be printed and copies thereof submitted to Government by the Inspector General.

JUDICIAL

Proceedings of the Government of Mysore.

READ—

Letter No. 1582—127, dated 8th October 1899, from the Inspector General of Police in Mysore, to the Secretary to the Government of Mysore, General and Revenue Departments.

I have the honor to report that your Memo No. 1475—J. 132 of the 29th July 1899, and subsequent reminders noted in the margin, to the Inspector General of Prisons in Mysore, calling for a report on the introduction of Mr. Henry's system of finger impressions for the identification of old offenders, was transferred to me for compliance on 26th September 1899, as no separate establishment was entertained in the Central Jail in accordance with the sanction conveyed in Government Proceedings No. 16899-90—J. 1674, dated 23rd June 1898.

(1) No. 1794—J. 161, dated 8th August 1899.
(2) ,, 2367—J. 243, dated 24th August 1899.

2. Measurements according to Bertillon's anthropometric system, by the establishment sanctioned by Government in the Police Department, were commenced on the 9th December 1896 and continued till June 1898. The number of cards taken according to this system was 720, excluding 78 cards received from the District Superintendent of Police, Civil and Military Station. Only one old offender was identified as the record of these measurements was but recent and confined to the City of Bangalore.

3. Mr. Henry's system of identification by finger-prints, which superseded Bertillon's system, was commenced on the 29th July 1898. The number of cards taken according to this system is 693 and 120 were received from the Civil and Military Station, while the number of identifications made after this system was introduced is three. Duplicate copies of 678 cards were sent to the Superintendent, Central Jail, Bangalore, for record in his office.

4. Finger-prints were taken according to Mr. Henry's system along with the anthropometric measurements according to Bertillon's system and so the cards taken according to the latter system were re-classified and arranged and kept in the Central Bureau along with the cards of finger impressions since taken under Mr. Henry's system.

5. The total number of cards in the Central Bureau in my office thus amounts to 1,611. This number includes the measurements taken by the Anthropometry Inspector of the convicts in the jails at Mysore and Shimoga which he visited twice in the year. The number is yet very small and compares unfavorably with the total number of cards in the Central Bureau of the Madras Presidency at the end of the year 1898, amounting to 36,759, of which 11,932 had, however, been received from districts during that year. The small number of identifications secured in this province up to date is therefore not surprising. It may also be explained that, owing to many of the convicts, whose impressions have been taken, still undergoing imprisonment in the jails and to the system not having been extended to the districts, we cannot show satisfactory results for some time to come.

6. In consequence of the prevalence of plague during the greater part of the year in many districts of the province and the police being engaged in carrying out plague measures, it was not possible to train the officers in the districts in taking finger impressions. But advantage was taken of the visits of the Anthropometry Inspector to Mysore and Shimoga Jails, to give instruction to the Head-quarter Inspectors and a few other Police Officers there.

7. As a small number of Police Officers has thus been taught the system of taking finger impressions and as it can be learnt easily, the system will now be introduced to all the lock-ups in the province.

8. With a view still further to extend this system of identification to the criminal and wandering classes of people and known depredators and suspects, I have issued a confidential Circular, dated 28th August 1899, (copy enclosed) to all the Superintendents and Assistant Superintendents of Police, directing that all the Taluk Inspectors, Jamadars and important Station-House Officers should be sent for to the District head-quarters and taught to take finger impressions. I have also given instructions as to the classes of

persons whose impressions should be taken, the nature of the information to be furnished in the cards and how the cards are to be disposed of. For this purpose it is necessary that a set of finger-print appliances should be supplied to all the District and Taluk head-quarters and important stations. I think that 100 sets of each of the marginally noted articles estimated to cost Rs. 418-12-0 will suffice for supplying the whole province at present and shall submit a separate proposal for sanction.

(1) India rubber rollers.
(2) Slabs.
(3) Ink tins.
(4) Steel measuring tapes.

9. After these instructions are brought into force, I have no doubt the system will be brought into full operation and that both the number of cards in the Central Bureau and that of identification of criminals and bad characters will increase.

10. With reference to para 2 of the First Assistant Resident's letter No. 2906—336-92, dated 3rd July 1899, to Government, it should be stated that as the cards taken according to the Bertillon system have been re-classified and recorded with finger-print cards as stated in para 4 above, it will be possible to classify them according to castes.

ENCLOSURE TO THE ABOVE.

Circular, dated 28th August 1899, issued by the Inspector General of Police, to all the Superintendents and Assistant Superintendents of Police.

As it is desirable to extend the system of identification of criminals by finger impressions, with their own consent, to the criminal and wandering gangs, such as Korchars, Lambanis, Waddars, Khandaries, &c., and known depredators and suspects, who are liable to change their names and place of residence frequently, it is necessary that all the Taluk Inspectors, Jamadars and important Station-House Officers should be taught to take finger impressions and for this purpose they may be sent for by turns to the District Head-quarters, and instruction imparted to them by the Head-quarter Inspector. Such of the Head-quarter Inspectors as have not been trained to take finger impressions may be sent to the office of the Inspector General of Police for training.

The following instructions are issued by the Inspector General of Police regarding the class of persons whose finger impressions have to be taken :—

(1) Every person arrested by the Police for an offence under Chapters XII and XVII of the Indian Penal Code, or under the provisions of Chapter VIII of the Criminal Procedure Code. Their finger impressions should be taken immediately after their arrest by the Police.

(2) Persons convicted of offences under the above named chapters of the Indian Penal Code and sentenced to short terms of imprisonment and undergoing imprisonment in the District Jails and Taluk Lock-ups or to fines only or to whipping only.

(3) Known depredators and suspects :—Three copies of impressions of all the above named persons should be taken, of which one should be kept in the station within the limits of which the person was arrested or is living, one sent to the District Office and the third should be sent to the Central Office.

(4) All criminal and wandering gangs : —As soon as a criminal gang arrives within the limits of a station in the province, the officer in charge of the first important station should, in addition to forwarding the usual gang form, take the finger impressions of all the male members of the gang with their names, age, height, chest measurements and marks of identification, and the names of the members of their families with their age, and send the cards with the constable escorting the gang. He should deliver the same to the next station or to the relieving constable who should check them with the gang and, if any suspicion arises as to the identity of the person, should immediately report the matter to proper authorities for necessary enquiries being made in the matter.

NOTE.—Besides the finger impressions, every card should contain information as to the individual's name, father's name, age, height, chest measurement and marks of identification, and, as far as available, his previous history. Cards, slab, roller, ink, &c., required for the purpose of taking finger impressions will be sent on application.

2. Letter No. 1705—133, dated 21st October 1899, from the same Officer requesting the sanction of Government for the purchase of the marginally noted anthropometric requisites costing Rs. 418-12-0.

100 India rubber rollers at Rs. 1-8-0 each	Rs.	150- 0-0
100 Tin slabs at 3 annas each	,,	18-12-0

Total..		418-12-0

3. Letter No. 2079—165, dated 18th November 1899, from the same Officer recommending a re-appropriation of Rs. 418-12-0 for the above purpose from the head "Equipment and clothing—11. Miscellaneous."

No. 6324-26—J. 560, DATED BANGALORE, 1ST DECEMBER 1899.

ORDER THEREON—The Government observe that, in view of the meagre results reported in the first of the letters read above, owing to the circumstances therein brought to notice, they are not in a position to form any definite conclusions on the merits of the system of identifying criminals by finger-prints. The purchase of the anthropometric requisites costing Rs. 418-12-0 to be met by a re-appropriation of an equal amount from the head "Equipment and clothing—11. Miscellaneous" of the Police budget will, however, be sanctioned, as re-recommended by the Inspector General in view to enable him to continue the experiment on a somewhat extended scale as proposed in paras 6 and 7 of his first letter above referred to, and he will be requested to report fully at the end of another year upon the further experience gained during the interval, and whether the system is susceptible of any improvement.

LEGISLATIVE

Proceedings of the Government of Mysore,

READ—

Government Proceedings No. 11860—Legis. 99, dated the 21st April 1899, issuing instructions in regard to the preparation of a collection of the Acts introduced into Mysore before the Rendition.

No. 6937-8—LEGIS. 38, DATED BANGALORE, 16TH DECEMBER 1899.

ORDER THEREON—The Superintendent, Government Press, is requested to supply the Curator, Government Central Book Depôt, Bangalore, with 200 copies of the above work for sale to the public at the price indicated on the title-page, the fact of copies being available for sale being duly notified in the *Mysore Gazette*. The remaining copies will be sent on to the General Secretariat (Legislative Department) for distribution or other disposal.

2. The Government are pleased, in continuation of their Order of the 21st April last, to direct the preparation of a further volume of the Mysore Code embodying the Regulations passed subsequent to the Rendition. The edition in this case will consist of 1,500 copies, besides such number of spare copies of individual Regulations as may be indicated on the Press copies or final proofs. The Superintendent, Government Press, will provide for the punctual transmission of proofs (at not less than six forms per week) and depute a competent Reviser on the Press Staff to read proofs, so as to ensure all possible accuracy in those sent for final approval.

3. To complete the Mysore Code, there will still be necessary a compilation of the Rules having the force of law issued from time to time otherwise than under Acts and Regulations; such for example, as the Inam Rules, the Police Rules, the Rules regarding the Custody and Guardianship of Minors, and the Rules for the Establishment of Local Committees. The Legislative Department will, as early as possible, complete the collection of these with the aid of the other Departments of the Secretariat, and take steps for their early issue.

Letter No. 392, dated 20th November 1899, from the President of the Muncipal and District Fund Boards, Kolar, stating, with reference to the Government Order No. 3241—Leg. 20, dated 4th September 1899, that, pending sanction of Government, Mr. S. Ranganna, Assistant Surgeon on plague duty at the Kolar Gold Fields, has been nominated an *ex-officio* Member of the Board, as he is the only Medcial Officer on the Fields, not below the rank of an Assistant Surgeon, and requesting sanction to his appointment.

ALSO :—

Letter No. 1451, dated 30th November 1899, from the Senior Surgeon and Sanitary Commissioner with the Government of Mysore, stating that, at the request of the President of the Sanitary Board, Kolar Gold Fields, he has permitted Mr. S. Ranganna, Assistant Surgeon and Superintendent of the Plague Camp at Oeregum, to be a Member of that Board pending the approval of Government.

No. 6694-95—L. F. 17-99, DATED BANGALORE, 12TH DECEMBER 1899.

ORDER THEREON—For the purposes of Section I, Clause I, of the Rules published under Notification No. 3241—Leg. 20, dated the 4th September 1899, Mr. S. Ranganna, Assistant Surgeon on plague duty at the Kolar Gold Fields, will be recognised as "the principal Government Medical Officer of the Gold Fields;" and his appointment accordingly, as an *ex-officio* Member of the Kolar Gold Fields Sanitary Board, will be duly notified in the *Mysore Gazette*.

2. It is, however, observed that there is nothing in the Rules themselves to require, as suggested by Mr. Hume Wright, that "the Principal Government Medical Officer" should be not below the rank of Assistant Surgeon.

Docket No. 312, dated 21st November 1899, from the same Officer stating, with reference to this office No. 5094—L. F. 15-99, dated 28th October 1899, that out of Rs. 20,972 sanctioned during 1898-99, only Rs. 4,293-12-7 was expended during that year, leaving the balance of Rs. 16,678-3-5 to lapse at the end of the year.

No. 6650-1—L. F. 15-99, DATED BANGALORE, 9TH DECEMBER 1899.

ORDER THEREON—Government are pleased to sanction out of the lapsed grant from Local Funds General of Rs. 16,678-3-5 a grant of Rs. 13,985 for the completion of the incomplete works during the current year. Government regret to have to observe that such large and disproportionate lapses are not creditable to the supervising agency. They further observe that no larger sums should have been applied for than could have reasonably been expected to be spent during the year. Government note that the works undertaken from District Funds last year but left incomplete at the close thereof, will be completed from the grants sanctioned for the current year, additional funds, if any required therefor and for fresh works, being separately applied for.

Docket No. 350, dated 27th October 1899, from the President of the District Fund Board, Kolar Circle, requesting sanction to the mileage allotment for the annual repairs of Kolar-Sompur road being raised from Rs. 60 to Rs. 100, and to the extra cost of Rs. 1,200 for the current year being met, as per Resolution of the Board, from the savings, that may be effected in the provision made for Public Works to be executed by the Revenue Department in the current year's District Fund budget of the Circle.

Letter No. 6063, dated 29th November 1899, from the Chief Engineer of Mysore, stating, with reference to this office No. 5510—L. F. 7-98, dated 13th November 1899, that the present mileage rate of Rs. 60 is not sufficient, but that, as a special estimate for Rs. 9,272 was sanctioned in August last for metalling and improving the road in question, it will be sufficient if the mileage rate is raised to Rs. 80 for the present.

No. 6960-2—L. F. 7-98, DATED BANGALORE, 18TH DECEMBER 1899.

ORDER THEREON—The Government concur in the Chief Engineer's suggestion and accordingly sanction the mileage allotment of the Kolar-Sompur road being raised from Rs. 60 to Rs. 80.

2. The excess cost of Rs. 600 required for the current year will, as proposed by the Board, be met from the savings that may be effected in the provision made for Public Works to be executed by the Revenue Department in the current year's District Fund budget of the Circle.

Proceedings of the Government of Mysore,

READ—

Para 2 of Government Proceedings No. 3356-58—L. F. 4398, dated the 7th September 1899, observing (*anent* the finances of the Bangalore City Municipality) that no municipal money should be spent, and no adjustment thereof made, without the charge being accepted by the Board; and requesting the Comptroller to issue the necessary instructions for future guidance.

Letter No. 777, dated the 31st October 1899, from the Comptroller, representing that no charges have been admitted by his office unless they have been covered by the sanctioned budget or by general or special additional sanctions of Government; and enquiring whether, in addition to Government sanction and budget provision, the acceptance of the Municipal Commission is also necessary before any item of charge can be adjusted, and, if so, in what form; also requesting to be instructed in detail as to the instructions he is required to issue.

No. 6887-9—L. F. 43-98, DATED BANGALORE, 15TH DECEMBER 1899.

ORDER THEREON—The following instructions are issued, in answer to the enquiry made by the Comptroller in the above, with respect to the procedure to be followed in the adjustment of municipal expenditure.

Where any item of expenditure has been sanctioned by Government or incurred by the Municipal Commission, the case is of course simple; all that the Comptroller's office has to do is to adjust it in the manner indicated by the Government or Municipal Commission, or else from such source as may be determined, on after consultation with the President.

It is where the charge has been incurred by some other spending authority, say the Sanitary Department, that a difficulty arises in adjustment. In such a case the Government consider it only fair that the Municipal Commission should have the opportunity of accepting or disclaiming liability to the charge, and, if the point be disputed, of making a reference to Government for decision. To enable them to do this effectively, it is necessary and sufficient to lay down that in every such case a final adjustment by debit to Municipal Funds shall not be made before the Municipal Commission have had an opportunity of considering the propriety of the debit at their next following monthly meeting.

C. SREENIVASIENGAR, *Secy. to Govt., Gen. & Rev. Depts.*

No. 6918-8½—L. F. 81-98, DATED BANGALORE, 16TH DECEMBER 1899.

ORDER THEREON—Under the circumstances stated, the provisions made for the repair of dispensary buildings in the budgets of the municipalities referred to above will be omitted and the total grants sanctioned for 1899-1900 reduced accordingly.

C. SREENIVASIENGAR, *Secy. to Govt., Gen. & Rev. Depts.*

To—The President of the Municipalities in the Kadur District.
The Comptroller to the Government of Mysore.

No. 6929-36—L. F. 77-98, DATED BANGALORE, 16TH DECEMBER 1899.

ORDER—In submitting the budget estimates of the Municipalities for the year 1899-1900, the Presidents of certain Municipalities expressed doubts as to the forms in which the estimates have to be prepared. The Government observe that the forms now in use are those prescribed in Proceedings No. 6702-11—Cir. 234, dated 19th January 1887, and that they should be prepared and submitted in accordance with the instructions laid down in Official Memo No. 6861-79—157, dated 8th December 1889.

2. Several of the budgets for 1899-1900, submitted to Government, did not contain details of works falling under VIII. Public Works *(b)* to *(o)*, works to be carried out during the year. On enquiry, the omission was explained by stating that, as minor works had to be undertaken as occasions arose, it was not possible to determine at the outset which roads or drains would be repaired or which drains newly constructed. With reference to this remark it is observed that a forecast of all roads, which, in the opinion of the President or Vice-President, require to be constructed or repaired, or which have to be provided with drains, should be made, and probable amounts required for each entered in the Budget Statement No. II, the total of each minor head being entered in Statement No. I. If, after passing of the budget, any change in the forecast of works be found necessary during the year to which the budget relates, the Presidents may make such transfers as may be deemed necessary from one minor head to another under the same major head without reference to Government. The Presidents should, in future, invariably furnish lists of works to be executed in each year, for which provisions are made in Budget Statement No. I.

Letter No. 332—319, dated 13th November 1899, from the President of the Municipalities in the Chitaldrug district, submitting, with reference to Government Order No. 3030-3—L. F. 341-96, dated 1st September 1899, a list of persons proposed to be appointed as *ex-officio* and nominated members for the newly constituted Municipality of Turuvanur, Chitaldrug taluk, and proposing to employ, in lieu of four sweepers and one peon already sanctioned, all the Begars of the said village, as an experimental measure, for looking after the conservancy work thereof on a payment of Rs. 120 per annum.

No. 7205-6—L. F. 341-96, DATED BANGALORE, 22ND DECEMBER 1899.

ORDER THEREON—The list of persons proposed for appointment as members of Turuvanur Municipality is approved, but with the remark that, as the appointment of the shekdar as an *ex-officio* member is opposed to the Government Orders of the 9th February and 3rd August 1893, Nos. 1349-80 and 2034-41, it will be necessary to appoint him by name. The President is requested to furnish information as regards the present shekdar's name for inclusion among the names of members to be notified.

2. As it is apprehended that the selection of the conservancy sweepers from among the Begars of the village, who have been, in accordance with the long standing village custom, looking after the conservancy and other Government works under the Aya system, would cause much inconvenience both to the Municipality and to the Begars themselves, the President proposes to employ, as an experimental measure, all the Begars of the village in general, on condition that they should attend to the conservancy and other works by turns and receive in return a lump sum remuneration of Rs. 120 per annum for the work, the amount being drawn on cheques and distributed among the Begars once in three months. Government think that the proposed arrangement is one that is well suited for a rural municipality like the one under consideration, and are therefore pleased to sanction the same as a tentative measure for a period of one year.

3. The President is requested to record the families of Begars entitled to do the work, noting the name of the head of the family, the rotation in which they should work, the number of Begars that should be available for duty daily and similar particulars.

4. A copy of such record may be filed in the Municipal Office, another at the District Office and a third submitted to Government.

Reports on Meteorology for 1898, received with letter No. 196, dated 27th September 1899, from the Director of Meteorology in Mysore.

No. 4077-85—R. F. 56-97, DATED BANGALORE, 4TH DECEMBER 1899.

ORDER THEREON—

1. There was no change in the number of observing stations.

2. *Atmospheric Pressure.*—In a normal year the pressure will be the highest in December and the lowest in June. As was the case in the year previous, the pressure in 1898 was highest in January and lowest in July. The mean average annual pressure was 29·762 against 29·779, which is the average of the past six years, 1893 to 1898.

3. *Temperature.*—The mean dry temperature for the year was only ·1 degree in excess of the normal, the annual averages at the different stations for the past six years being:—

Bangalore	...	...	...	... 75·0
Hassan	...	...	...	... 73·4
Mysore	...	...	...	... 76·8
Chitaldrug	...	...	...	... 77·4

4. *Rainfall.*—During the first eight months of the year the rainfall was deficient by more than one-third of the usual quantity. This deficiency was more than made up during the remaining four months. On the whole, the rainfall in 1898, at the four stations noticed above, was 33·02 or 0·28 more than the average.

5. *Wind Velocity.*—The greatest velocity was on 17th June at Mysore, being 499 miles an hour.

6. *Wind Direction.*—Generally, the wind direction was South in Bangalore, and Mysore, South by East in Hassan, and South by West in Chitaldrug.

7. The diagrams at the end of the report show graphically the several meteorological variations.

8. The report will be published and copies distributed as usual.

No. 4336-7—R. 1368, DATED BANGALORE, 15TH DECEMBER 1899.

ORDER THEREON—It is reported that the village is depopulated; that the village site measuring 5 acres and 8 guntas is unsuited for building purposes owing to its dampness by the cultivation of wet lands all around; and that the neighbouring raiyats have no objection to the grant of the same for cultivation. Under these circumstances, sanction is accorded to the land (5 acres and 8 guntas) in question being appropriated for cultivation purposes and disposed of under the Darkhast Rules, the assessment leviable thereon under para 3 of Section 48 of the Land Revenue Code, as land appropriated for purposes of agriculture, being fixed in communication with the Superintendent of Revenue Survey in Mysore.

Memo No. 4965—268-98, dated 7th November 1899, from the First Assistant to the Resident in Mysore, to the Dewan of Mysore.

Copy of the following letter is forwarded to the Dewan of Mysore for information, with reference to correspondence ending with this office letter No. 4450, dated the 4th October 1899.

Sd. H. R. C. DOBBS,
1st. Asst. Resident.

Letter No. 3711, dated 25th October 1899, from the Acting Secretary to the Government of Madras, to the Resident in Mysore.

With reference to your letter, dated 25th April 1899, No. 1829, regarding the demarcation of the boundary between the village of Sasivehalli in the Bellary District and of Basavankote in Mysore, I am directed to state that Mr. Martin, Deputy Superintendent of Survey in charge of No. II, Bellary Division, inspected the locality in dispute on the 20th June last, in company with the Head Assistant Collector, Bellary, on behalf of this Government, and the Assistant Commissioner, Chitaldrug district, on behalf of the Mysore Durbar.

2. The demarcation was revised by these Officers by removing one incorrect field-stone and sinking flush with the ground one Theodolite Station which was not on the boundary. Three British field-stones, which had been originally fixed one link to the south of the Mysore marks, have also been removed and re-fixed one link to the north of the latter.

3. In regard to the Durbar's contention that, as the Copalla stream is the common boundary between the villages, the British marks should be fixed to the north of the stream. I am to state that the representatives of both the Governments have unanimously come to the conclusion that the stream is not the common boundary between the British and Mysore villages, and that the British stones to the south of it, as now re-fixed, are in their proper places.

4. His Excellency the Governor in Council accepts the views of the local Officers and the revised demarcation now made.

ORDER THEREON—Recorded, and communicated to the Deputy Commissioner, Chitaldrug district, in continuation of Government Proceedings No. 3479-80—R. F. 29-98, dated 8th November 1899.

READ—

(1) The following letter No. 38, dated 15th July 1899, from the Deputy Commissioner, Hassan District, to the Secretary to the Government of Mysore, General and Revenue Departments.

I have the honor to state that Hosahalli Ammanagudi kaval in Tagare hobli, Belur taluk, bearing Survey No. 45, with an extent of 415 acres, is one of the Amrut Mahal kavals transferred in the year 1887-88 to the Revenue Department. It used to be sold annually for hulbanni. Several darkhasts having been made for the land for cultivation purposes, the same was broken up into 63 survey numbers.

2. Among the several applicants was one Lakka Mestri, a resident of Ibbid village, Tagare hobli, who represented that he had been an official in the Mysore district in the Revenue and Forest Departments for a period of 15 years, that he was retired owing to his long illness in the year 1880 in the reduction of that year as shekdar of Kalase hobli, that he received a gratuity of Rs. 30 only and as such he had no means of living, and in consequence prayed for the grant of the kaval on shraya tenure, offering to build a village thereon by name Devarajapura with the help of some poor people like himself.

3. Lakka Mestri continued to present petitions, from time to time, to the several Amildars and Deputy Commissioners until at last my predecessor, Mr. B. G. Krishniengar, ordered that lands enough to maintain the petitioner should be selected and reported for being granted at an upset price.

4. Also one Dasaiengar, retired Revenue Head Munshi of this office, prayed for the grant of certain survey numbers of the kaval free of price in consideration of his long service and his poor pension of Rs. 20 which he stated was insufficient to maintain himself and his family. It was accordingly ordered that the lands selected by Dasaiengar should be excluded from the sale of the kaval lands which took place from 17th to 21st May 1898.

5. Dasaiengar and Lakka Mestri selected the marginally noted survey numbers. On submission of the sale records Mr. Krishniengar ordered the grant of Survey Nos. 1, 2, 3, 4, 5, 10, 6, total extent 42 acres and 36 guntas, to Dasaiengar and numbers 6, 7, 8, 14 amounting to 24 acres and 39 guntas to Lakka Mestri at an upset price of Re. 1 per acre, considering the sale prices of the surrounding survey numbers.

Dasaiengar's Survey Nos. 2, 3, 6, 7, 5, 10, 61.

Lakka Mestri's Survey Nos. 1, 4, 5, 6, 7, 8.

6. Lakka Mestri died before the said order was communicated to him. Dasaiengar applied on 6th July 1898 to the Deputy Commissioner praying for the grant of Survey Nos. 6 and 7 (which were ordered to be granted to Lakka Mestri) on the ground that the concession shown to Lakka Mestri as a poor retired official could not apply to his heirs, that Lakka Mestri left no male issue and that he did not possess either a house or any other property. Mr. Krishniengar, late Deputy Commissioner, ordered that the said Survey Nos. 6 and 7 should also be granted to Dasaiengar if, as stated by him, Lakka Mestri was dead. This order was given effect to.

7. Dasaiengar had also presented a petition to the Amildar on 24th June 1898, praying for the grant of the lands mentioned in the above paragraph. It was referred to the shekdar to ascertain and report what the heirs of the deceased Lakka Mestri had to say in the matter.

8. Lakka Mestri's widow stated before the shekdar on 29th July 1898, that her husband died over a month ago, leaving a daughter, that she was living with her son-in-law in Kallahalli Koppal in Halebid hobli, being quite helpless, that her son-in-law was also very poor, that her husband was telling her that he had applied for seven survey numbers out of the kaval, and prayed that the two Survey Nos. 6 and 7 might not be granted to Dasaiengar as she wished to have all the four survey numbers by means of which alone she could maintain herself and that she had a thatched house of two ankanams in Ibbid village, Tagare hobli, where she had been living with her husband prior to his death. She has also put in a petition to the Sub-Division Officer to the same effect. Meanwhile Dasaiengar made a darkhast to the Amildar praying for the grant of the remaining Survey Nos. 8 and 14 (which had been ordered to be granted to Lakka Mestri).

9. The Amildar thereupon submitted the records for the orders of the Sub-Division Officer, Saklespur, with his opinion that the remaining two Survey Nos. 8 and 14 (now applied for by Dasaiengar), might at least be granted for the maintenance of Lakka Mestri's family.

10. Mr. T. Paramasiva Iyer, the Officiating Sub-Division Officer, recommends the cancellation of the grant of Survey Nos. 6 and 7 to Dasaiengar, holding that, if a darkhast is granted and the darkhastdar dies before the grant is communicated to him as happened in this case, the heirs are entitled to the refusal of the lands before they can be disposed of otherwise.

11. I concur with the Sub-Division Officer's opinion, and therefore beg that the Saguvali Chit for Survey Nos. 6 and 7 in favor of Dasaiengar may be cancelled with a view to grant them to Lakka Mestri's widow, who I think deserves the concession granted to her husband.

Vernacular papers on the subject are submitted for reference and kind return.

(2) Petition dated 24th November 1899, Registered No. 1044, received from Dasaiengar.

No. 4462—R. 1417, DATED BANGALORE, 19TH DECEMBER 1899.

ORDER THEREON—As the order of the Deputy Commissioner, granting the kaval lands to Dasaiengar and Lakka Mestri for an upset price was opposed to the provisions of Government Order No. 12817-26—R. 1346, dated 3rd February 1894, which directs that lands in Amrut Mahal kavals should be granted for occupation to the highest bidder in an out-right public auction sale, notices were issued to the parties concerned to appear in person before Government on the 27th November 1899, and to show cause why the grant of the lands should not

be cancelled. The parties failed to do so; but Dasaiengar has forwarded by post a petition representing that he was retired under peculiar circumstances and that some consideration should be shown to him. The Government observe that the sale by public auction of the lands in question is imperative under the Government Order quoted above, and that para 5, Rule XX of the Land Revenue Rules does not apply to such a case. Under these circumstances, the Deputy Commissioner's order of the 16th June 1898, granting the lands to Dasaiengar and Lakka Mestri, is hereby set aside, and the present Deputy Commissioner will be directed to dispose of the applications in accordance with the Standing Orders.

2. The number of darkhasts shown to be pending in the Bangalore district at the end of the previous quarter was 13, whereas the number shown as pending disposal at the beginning of the present quarter is 11. This discrepancy requires explanation. Of the above 11 darkhasts, one is stated to belongto the year 1895-96, and three to 1898-99. The Deputy Commissioner is requested to state to what years the remaining seven darkhasts relate.

3. The attention of the Deputy Commissioners of the Tumkur and Shimoga districts is invited to para 2 and that of the Hassan district to para 3 of Government Proceedings No. 1506-13—R. 511, dated 17th August 1899, and they are requested to submit the explanation and report, respectively, at an early date.

Tables of Agricultural Statistics for the year 1898-99, received from Deputy Commissioners of Districts.

No. 4574-83—R. 1451, DATED BANGALORE, 22ND DECEMBER 1899.

ORDER THEREON—On an examination of the Tables of Agricultural Statistics for 1898-99 received from Deputy Commissioners of Districts, and a verification of material points with other returns as per margin received in the Dewan's Office, several discrepancies, errors, and omissions were found. Such of them as could be rectified here have been rectified as shown in the annexed Statement A. Deputy Commissioners are requested to insert these alterations in their office copies. Others for which further information and explanation are required are shown in the annexed Statement B. Deputy Commissioners and other Officers concerned are specially requested to give their close attention to the observations made therein and furnish full information on all the points referred to at as early a date as possible, within a month from the date of the receipt of these Proceedings. It should be complete and accurate in every particular, so as to allow of a supplementary return being sent to the Residency, if necessary, to correct mistakes, if any, in the returns which have already been submitted to the Government of India.

1. Area and Abawal Returns received from Deputy Commissioners.
2. Return showing the Area of State and Reserved Forests and Plantations, received from the Conservator of Forests.
3. Lists of Areas of Government and Alienated Villages, Forests, Kavals, &c., received from the Superintendent, Revenue Survey.
4. Nagadiyat Returns received from Deputy Commissioners.

2. The area of State and Reserved Forests and Plantations as exhibited in the return received from the Conservator of Forests materially differs from that shown in the lists of areas furnished by the Superintendent, Revenue Survey, as shown in the abstract Statement C hereto appended. The differences are striking and are believed to be due to the fact that additions and alterations in the areas of Forests and Plantations effected by the Forest Department, from time to time, are not duly intimated to the Survey Department. The Superintendent, Revenue Survey, is requested to place himself in communication with the Conservator of Forests and to submit to Government revised lists of areas of Forests and Plantations as early as practicable and further arrange to have his Office posted up with the necessary corrections, from time to time, so that the accounts and returns of the two Departments may agree in this respect.

3. The list of areas received from the Survey Superintendent for the Bangalore District shows separately an area of 2,999 acres and 38 guntas on account of 12 villages pertaining to the Civil and Military Station, but the area of the Civil and Military Station itself has been apparently included in the extent exhibited under Government Villages against the Bangalore Taluk. The latter should be separately shown also, and a revised statement furnished as early as practicable.

4. There is some diversity of practice in dealing with "Pot Kharab" in preparing Table A. II. The proper course is to class it as "not available for cultivation" and include it under head 2, excluding it from heads 3, 4 & 5. This course should be adopted in future.

5. It is evident that the Statistical Tables under review, being the second set prepared in view of the full instructions contained in the Memorandum annexed to Government Proceedings No. 3473—R. 1100, dated 6th October 1897, could have been prepared better than they have been. It is hoped that the next set, *viz.*, that for the current year 1899-1900, will be more satisfactory. The Assistant Commissioner, presumably an Officer well acquainted with Jamabandi accounts and returns, deputed for this work under the orders contained in para 2 of the Government Proceedings just cited, should be required to attest them also in each year.

Hassan ...	Belur ...	A II col. 7 total.	47,349	24,349	—23,000	The total irrigated area for this taluk is put down as 24,243 acres and the area cropped by irrigation as 47,349 meaning thereby that double crops were raised on an area of 23,106 acres. As the total area cropped more than once (both irrigated and unirrigated) as per Table A III is 405 acres only, the figure 47,349 is obviously wrong. Moreover the total area cropped by irrigation as per return for 1897-98 was 24,000 acres only. Hence it was presumed that 47,349 acres were inadvertently entered instead of 24,349 acres and a deduction of 23,000 acres has therefore been made in this office both against the Belur taluk and the District Total.
Mysore ...	.....	A III col. 17 ...	66	.....	—66	The extent of 66 acres entered against "Jute" has been transferred to the head, "Others" (Head 18) as jute is not grown in the Mysore State and a species of hemp (Sanabu or Pundi) is what is meant.
Kadur ...	.....	Do ...	180	.....	—180	This extent has also been added to "Others," for the reasons stated above.
Bangalore ...	.....	C col. 2 ...	1,691,877	1,978,708	+286,831	This difference represents the area of alienated villages deducted under column 2 of A I. As there are no Feudatory States, the entire extent of the district as per column 1 of A I should have been entered.

This is quite opposed to the instructions laid down in Government Proceedings Nos. 7063-70—R. 2381, and 1319-26—R. 429, dated 6th February and 29th July, respectively.

B—Statement showing the Discrepancies observed in the Tables of Agricultural Statistics and other Returns for 1898-99, and the remarks of the Government thereon.

District.	Taluk.	Particulars.	As per return.	As per return.	Difference.	Remarks.
			As per list of area received from the Superintendent Revenue Survey, copy of which has already been sent to the Deputy Commissioners.	As per Atchkat return.		
Bangalore ...	Hoskote ...	Total area ...	174,037	173,815	−222	Is this difference entirely due to the transfer of Raghupathi Hosahalli village to the Kolar taluk ?
	Nelamangala ...	Do ...	174,625	174,697	+72	The cause of these differences should be explained.
	Devanhalli ...	Do ...	150,588	150,514	−74	
	Anekal ...	Do ...	121,760	121,752	−8	
Kolar ...	Kolar ...	Do ...	181,041	181,410	+369	This increase is stated to be due to the transfer of a village from the Bangalore district, but the area deducted in the return of the Bangalore district is 222 acres only. The difference of 147 acres should be accounted for.
	Chintamani ...	Do ...	185,970	174,065	−11,905	Although the total of the areas of these taluks as per Atchkat return agrees with the total of areas shown in the Survey Superintendent's lists, yet the difference against each of the taluks is great. This is presumed to be due to the territorial changes consequent upon the formation of the Srinivaspur sub-taluk as an independent taluk. Is this fully the explanation in each case ?
	Srinivaspur ...	Do ...	200,780	207,389	+6,609	
	Mulbagal ...	Do ...	206,922	209,269	+2,347

Tumkur ...	Tumkur ...	Do ...	290,874	290,970	+96	These small differences which occur in the total areas are unimportant and call for no remarks, but the alterations under the sub-heads, such as, area of Government villages, area of alienated villages, and areas of Amrut Mahal and Nagadi kavals, &c., are large and they are explained (in the comparative statement submitted by the Deputy Commissioner along with Atchkat return) to be due to revision of Akarbands, transfer of Amrut Mahal kavals and certain Nagadi kavals to the head "Raiyatwari," &c., The Superintendent, Revenue Survey has not intimated to this office the alterations in areas due to such transfers and revisions of Akarband as he has done in case of certain other alterations in the areas of certain taluks in the Bangalore and Hassan districts. He is requested to send in revised statements of areas in all cases in which corrections and alterations have been made since the submission of the lists of areas in pursuance of this office No. 8015—R. 2685, dated 17th March 1897.

Mysore ...	....	Total area ...	.....	.....	.....	The small differences observed in the total areas of the Yedatore, Heggaddevankote, T. Narsipur, Krishnarajpete, Nagamangala, Mandya and Malvalli taluks are stated to be unaccountable.
Hassan ...	....	Do ...	.....	.....	.....	The small differences observed in the total areas of all the taluks except Hole-Narsipur are attributed to be due to the correct statement of areas received from the Survey Superintendent with his Yadi No. 3295, dated 10th July 1899. No such revised list has been sent to this office by the Superintendent, Revenue Survey.

Bangalore ...	Nelamangala ...	A II column 3 (culturable waste).	11,492	10,891	— 601	The area shown under this head for all the taluks except Nelamangala corresponds with the assessed unoccupied area as per Atchkat Return minus "Phot Kharab". The extent shown for the Nelamangala taluk in Table A II is even less than the assessed unoccupied area (minus Phot Kharab) by 601 acres. This discrepancy and the reason why Nelamangala has been treated differently from other taluks need explanation.
Kolar ..	... .	Do ...	..	...	...	The area entered under this column for all the taluks agrees with the extent of assessed unoccupied lands minus Phot Kharab.

Hassan ...	Hassan ...	Do ...	12,350	11,395	— 955	The extent entered under this head is the area of assessed unoccupied lands minus Phot Kharab in the case of all taluks except Hassan. The figure given for this taluk is less than such area even after deducting Phot Kharab.
Shimoga ..	....	Do ...	...	...	...	The total culturable waste for the whole district is put down as 168,537. The total area of unoccupied waste *including* Phot Kharab is 217,471, the difference being 48,934 acres. This difference as per particulars given in the Atchkat Return, represents the area of coffee forests in the Sorab (15,827), Sagar (20,225), and Tirthahalli (12,882) taluks.
Kadur ..	Kadur ...	Do ..	65,768	65,774	+ 6	The area shown under this column for all the taluks except Kadur corresponds with the area of unoccupied lands *excluding* Phot Kharab.

In the case of the remaining taluks the figures given do not tally with the occupied areas whether *exclusive* or *inclusive* of Phot Kharab.

Mysore	.....	...	...	...	...	The order in which the names of taluks in the district are given in the several returns is not uniform. For instance, the names of Chamrajnagar and Seringapatam taluks come as 6th and 9th *in order in the Atchkat Return*, while in Table A of Agricultural Statistics they stand as 2nd and 3rd, respectively. Want of uniformity in this respect leads to confusion and often causes much inconvenience and clerical error and waste of time in the verification of figures. One and the same arrangement of taluks should be observed in all periodical accounts and returns.

Proceedings of the Government of Mysore,

READ THE FOLLOWING PAPERS—

Official Memorandum No. 2445—Ft. F. 5-98, dated the 20th September 1898.

"The attention of the Deputy Commissioner, Shimoga district, is drawn to Subject No. 231 of the Dasara Representative Assembly Proceedings of 1897, and he is requested to submit through the Conservator of Forests a report as to regulating the prices of firewood by cubical contents."

(ENCLOSURE TO THE ABOVE.)

Summary of Discussion.

Subject No. 231.
Supply of firewood to raiyats.

In the taluk of Honnali which is wholly maidan with very little jungle, the constitution of reserved forests by Government and the increased demand for fuel by the Gold Mining Company and fuel traders, have deprived raiyats and other villagers of the means of obtaining a supply of firewood and agricultural implements. It is therefore requested that facilities may be afforded for obtaining implements, and that firewood may be given to raiyats at lower rates of seigniorage, and to others only after the wants of raiyats have been supplied. For each Holavu bandy load, the rate may be fixed at 4 annas, instead of 2 annas per cart drawn by a pair of bullocks.

Reply of Government.

The seigniorage cannot be reduced. There is enough of wood to meet the requirements of raiyats. The prices will, if possible, be regulated by cubical contents. A report on the subject will be called for from the Deputy Commissioner.

2. *Letter No. 1659—110, dated the 13th November 1899, from the Conservator of Forests in Mysore.*

In forwarding copy of letter No. 872—48, dated 9th ultimo, from the Deputy Commissioner, Shimoga, I have the honor to express my concurrence with the views therein expressed. Moreover, it would be scarcely possible to charge by cubic measurement for fuel removed from District Forests, and it would, I think, be difficult to do so in the case of State Forests. Lastly Government has recently decided (Proceedings No. 8979-80 —Ft. F. 4495, dated 6th June 1899) that the unit of measurement in such cases shall be the load, irrespective of its weight or cubic contents. Personally I consider this arrangement really advantageous to the raiyat.

(ENCLOSURE TO THE ABOVE.)

Letter No. 872—48, dated 9th October 1899, from the Deputy Commissioner, Shimoga district, to the Conservator of Forests in Mysore.

With reference to Government Official Memorandum No. 2445—Ft. F. 5-98, dated 20th September 1898, requesting to submit through you, a report as to regulating the prices of firewood by cubical contents (Subject No. 231 of the Dasara Representative Assembly Proceedings of 1897), I have the honor to state that where firewood is sold in a Government Depot, the weighing system may continue. Where wood cut by departmental agency is stacked on the spot, sale by cubical measurement seems appropriate. But where raiyats are allowed to cut and remove under licenses to sell by cart-load seems best, as otherwise there would be much inconvenience to raiyats.

No. 4211-9—FT. F. 5-98, DATED BANGALORE, 9TH DECEMBER 1899.

ORDER THEREON—Recorded. The suggestion made by the Deputy Commissioner and concurred in by the Conservator of Forests embodies the most feasible plan and may be carried out in practice.

Secy. to Govt., Gen. & Rev. Depts.

PETITION

Proceedings of the Government of Mysore,

Appellant.		Respondent.
Channappagauda	*versus*	Dyavappagauda.

READ—

Petition of Appeal No. 1906—A. S. 53 of 1898-99, presented by Channappagauda, patel of Uggihalli, Mudgere taluk, against the order of the Deputy Commissioner, Kadur district, accepting the relinquishment of certain lands by the appellant in favor of his son the respondent.

2. Letter No. 124, dated 28th August 1899, from the Deputy Commissioner, Kadur district, reporting on the above.

3. Records of the case.

Kandayam due by the appellant, amounting to Rs. 260, having fallen into arrears, and the Amildar having proceeded to the village for its speedy realization, the appellant effected, on 9th July 1898, a settlement with the respondent his son, in accordance with which he relinquished in favor of the latter, 51 survey numbers of Uggihalli and two of Bettadamane in his khate. The Amildar ordered, on the varg-raziname, that the payment of arrears, within 15 days, by the respondent should be awaited. On 12th July 1898, *i. e.*, three days after, the appellant applied to the Deputy Commissioner for the cancellation of the varg-raziname on the ground that he had been forced by the Amildar to present it. As the Amildar and the Extra Assistant Commissioner were of opinion that the varg-raziname had been voluntarily presented, the Deputy Commissioner accepted it on 13th February 1899. Hence this appeal to Government.

No. 4135-43—PET. F. 50-99, DATED BANGALORE, 6TH DECEMBER 1899.

ORDER THEREON—The raziname having been withdrawn before it was accepted by the Amildar, no effect could be given to it. The Deputy Commissioner's further proceedings thereon are void. The Deputy Commissioner's order is therefore reversed.

READ—

Correspondence ending with letter No. 457, dated 23rd March 1899, from the Deputy Commissioner, Kadur district, submitting further report on the petition of appellant of Kallumane village, Mudgere taluk.

No. 4257-64—P. F. 51-99, DATED BANGALORE, 12TH DECEMBER 1899.

ORDER THEREON—The respondent, Manjegauda, contends, and it is a fact admitted by appellant, that the additional evidence ordered to be taken by Government, on 21st February last, was taken without any notice to him. This irregularity vitiates the Deputy Commissioner's proceedings. The Government therefore resolve to remand the case to the Deputy Commissioner with directions to fix a date for hearing and, after due notice to both parties, take such evidence as may be offered by them on the issue already remitted for trial, *viz.*, whether the consideration for the transfer of the lands in dispute was paid out of moneys belonging to the appellant or not.

2. A return to this order will be made within a month from the date of receipt thereof.

READ—

Petition of Appeal No. 771—A. S. 47 of 1898-99, presented by the appellant above named against the order of the Deputy Commissioner, Mysore district, rejecting his claim to S. No. 85 of Mirle village, Yedatore taluk.

2. Correspondence ending with letter No. 398, dated 31st October 1899, from the Deputy Commissioner, Mysore district, reporting on the above.

3. The records of the case.

The facts of the case are as follows :—

On 21st September 1859, the appellant's father, Nanjundabhatta, obtained, on darkhast, land Maji No. 573—9 of Mirle village, measuring 6 kolagas and 9 manas and assessed at Rs. 1-14-8. On his death the land was registered in the joint names of his widow Sakamma, and the appellant. At the Survey Settlement in 1884-85, the land in question became Survey No. 102 measuring 8 acres and 8 guntas. It was assessed at Rs. 2 and confirmed to, and accepted by, the appellant and his mother Sakamma. Survey No. 85 (measuring 13 acres and 17 guntas, and assessed at Rs. 6-8-0), to which appellant now lays claim, is shown in the Faisal Patrik as Government assessed waste.

2. In January 1898, the Hobli Shekdar reported to the Amildar that the appellant had entered upon Survey No. 85 and was preparing it for wet cultivation with the water of the new Chamraja channel. In the enquiry which followed, the appellant represented that land Maji No. 573—9 was indentical with Survey No. 85, the boundaries of which tallied with those of the Maji number as given in the darkhast of 1859, that as he was unaware that a different number had been given to his land at the Survey Settlement, he failed to have the mistake corrected in time. He prayed for confirmation of Survey No. 85 in his name. The Deputy Commissioner rejected the claim on the grounds that the northern boundary of the Maji number as given in the darkhast, was indefinite and incapable of indentification, that the appellant who was present at the Survey Settlement had actually agreed to take up survey No. 102 and that the period within which the mistake, if any, could have been corrected, expired 12 years ago.

3. In the meanwhile Survey No. 85, which had been shown in the Survey Settlement records as Government assessed waste, was sold by public auction and knocked down to one Lakkegauda for Rs. 1,800. The full amount of purchase money having been recovered, the land was put in possession of the purchaser who has since transferred it to the 2nd respondent.

4. In his letter No. 398, dated 31st October 1899, the Deputy Commissioner reports that, according to the Pahani Accounts, No. 102 has all along been in the appellant's possession and that it was cultivated for six years from 1884-85, the year of Survey Settlement, to 1889-90.

No. 4248-55—P. F 52-99, DATED BANGALORE, 12TH DECEMBER 1899.

ORDER THEREON—It is clear from the foregoing statement of facts that the appellant's claim to land, Survey No. 85, is wholly untenable. The Deputy Commissioner's order is therefore confirmed and this appeal dismissed.
